Roadway & Common Space	\$13,131.83		
Total Assets	\$116,254.07	Total Equity	\$116,254.07

GOVERNANCE

Auditor Report

Role of the Auditor

The auditor makes a report to members on the results of the audit of the reserve account, and on the financial statements of the association. This report is laid before the membership at the Annual General Meeting.

Independence

The auditor is not a member of the Board and does not attend Board meetings. They function independently to provide objective assurance to all members of the Co-op.

Annual Review Scope

On a one-time annual basis, the auditor reviews bank statements and invoices to verify where and how funds were spent. They reconcile these with the general ledger and the values reported by the Board, then provide a written report for the AGM.

Regulatory Basis

The auditor's duties are defined under Section 6(1) of the Water Co-operative Bylaws.

BOARD ELECTIONS

Board Member Nominations

RETURNING MEMBERS	NEW CANDIDATES
Kerri Cobb	Candace Paul
Keith Wagner	Dave May
	<i>Others (floor nominations welcome)</i>

Board Responsibilities

- Meet quarterly (minimum)
- Manage fiscal reporting and annual financial submissions
- Administer day-to-day operations as required
- Provide timely communication to Co-op members
- Address concerns and issues brought forward by the membership
- Act in the best interests of all members at all times

2023 Annual Fees per Lot

\$390 Operating Fee Per lot (annual)	\$100 Reserve Contribution Per lot (annual)	\$490 Total Annual Fee Per lot payable
--	---	--

WATER QUALITY

Water Quality Testing Results

✓ Zero E. coli or Coliforms Detected

Hill Spring Well · All 48 tests conducted January – November 2022

Testing Source

A comprehensive spreadsheet of Hill Spring Well results has been compiled from the Alberta provincial Health Services website and maintained by the Board.

Community Testing

Test results from samples taken directly within the Mountain Vista community are not published publicly online — these results are managed and tracked internally by the Co-op.

2022 Summary

Both Coliforms and Escherichia coli (E. coli) showed Absent readings across all 48 test dates conducted throughout 2022. The water supply meets all provincial drinking water standards.

SAFETY & OPERATIONS

Emergency Response Plan (ERP)

Scope

A community Emergency Response Plan (ERP) has been developed and adopted by the Board. The ERP addresses all foreseeable situations that could impact the water supply and quality, including equipment failures, contamination events, power outages, and natural disasters.

Document Distribution

A hard copy of the ERP is posted inside the pump shack for immediate access during an emergency. An electronic copy is stored on the Board's Google Account. The document is available via email to any member who requests a copy.

Annual Review

The ERP is reviewed and updated at a minimum once per year, following the AGM, to reflect any changes in Board membership, operations, or regulatory requirements.

Live Review Available

A copy of the ERP is available for member review at this meeting. The Board welcomes questions, feedback, and suggestions for improving the plan.

COMMUNITY UPDATES & NEW BUSINESS

Ongoing Business

Recreation Poles

Multi-activity poles (volleyball, badminton, tetherball) will be installed this spring in the circular green space. This project has been coordinated by the Board.

Garbage Collection

Wayne's truck is operational again and garbage collection is back to normal. Should the need arise for an alternate driver, they will be compensated at Wayne's rate and must provide an invoice for reimbursement.

Snow Removal

Very little was spent on snow removal this winter. The surplus budget will roll over to next year's budget, resulting in a slight reduction in 2024 fees.

Encroachments

Encroachment matters are to be raised and discussed on the floor during this meeting.

New Business

Pond Fish

Discussion item: whether to reintroduce fish back into the community pond. Members are invited to share their views and vote on the matter.

Tree Grants

The Board will explore available provincial and municipal tree-planting grants applicable to community green spaces. Members with knowledge of relevant programs are encouraged to share details.

Committee Structure

Better division between Water Co-Op operational responsibilities and community social issues is proposed. A Social Committee would be formed to manage recreational and social programming. Volunteers are welcome — if no one comes forward, the Board will continue to manage these items but will split meetings to keep operations and community matters separate.

Questions & Discussion
