	open retained Earnings	- 34,517.20		
	Retained Earnings (net income)	- 2,984.36		
			<u>111,511.70</u>	

After presenting the above, there was a question about the reserves from 2019. There were two cabin owners who thought the reserve was larger previously (there was a thought that it was as high as \$16,000 as the initial reserve deposit in 2019). After the AGM was complete, the Board pulled the minutes from the 2019 AGM. From those minutes, page 2, item 7 states \$4,000 as the initial deposit.

There was a question raised about putting the reserve into a more lucrative account such as a mutual fund instead of just in the bank. There was some discussion about this possibility and at the current time, the possibility of making enough money to make it worthwhile is fairly low. Stacey indicated that should we move forward with putting all or some of our reserve into alternative banking options, it would have to be in a cashable GIC in order to have the \$ cashable should we need to use it and currently the value add wouldn't be worth pursuing, but will be looking into the possibility.

Lorne Jacques was the auditor for the previous year. He submitted a letter of his report, the contents of which are below:

March 20th, 2022

RE: Audit of 2021 financial statements for Mountain Vista Water Cooperative

To Whom It May Concern,

As the membership-elected and volunteer auditor for the Mountain Vista Water Cooperative, I have reviewed the 2021 financial statements and found them to be in order. I would note that the reviewed documents were thorough, well organized, and readily accessible.

I would further note that the planned, and required by provincial regulation, contribution to the reserve fund related to the potable water system was again set aside. Now that the reserve has grown and market interest rates have risen, the Board may wish to consider placing a portion in a term deposit.

Sincerely,

Lorne E Jaques, Cabin 10
lejaques@shaw.ca

There was a vote for acceptance of the 2021 Financial report and Auditor report. 13 attendees were in favour and 1 attendee abstained from voting. Motion was passed.

3) Vote for Board Members.

There was a slide provided explaining the general responsibilities of the board, which includes:

- Meet quarterly (minimum)
- Fiscal and annual reporting
- Administer day to day operations as required
- Communication to the members
- Address concerns and issues brought forward by membership
- Look out for the interests of all members

There are three returning board members; Kerri Cobb, Stacey Hogan and Joanne O'Neil. Dennis Reiger had finished his three-year term and has declined to put his name forward for another term. Thank you for your time on the board Dennis.

Prior to the AGM, both Geoff Snider and Keith Wagner, who had served their three-year terms, indicated their willingness to continue to serve on the board for a further term.

There was a question whether there were any owners who would like to put their name forward to take part on the board. No further volunteers were named. There was a poll, and both Geoff and Keith were voted to continue.

4) Vote for Auditor

Lorne Jacques had provided his services previously, but has declined to continue in the role (mainly due to an upcoming sale). It was asked for volunteers to put their name forward for this opening. The functions and duties of the auditor were laid out as follows:

- 6(1) The auditor is to make a report to the members
- (a) on the results of the audit with respect to the reserve account, and
 - (b) on the financial statement of the association and that report must be laid before the membership at an annual meeting of the association.

As communicated, the role of the auditor is not a part of the Board and as such does not attend Board Meetings, they audit the financials at the end of the year and report on their findings. The auditor will on a one time basis annually review bank statements and invoices, and review where and why the money was spent. Compare the values (including general ledger) the board reports with the bank statements and provide a report for the AGM. This would be a small time commitment (a few hours annually)

Will Prince put his name forward, and after a poll vote, he was unanimously voted in. We wish to give a thank you to Lorne for his services.

5) Discussions

- a) Acquisition of the common space and roadway

The Board received confirmation that the Title for the Common space & Roadway was just registered the day prior to the AGM. We were emailed the title document and two pictures of the survey drawings of the area as well as a survey of the access road (easement). These are provided to the members of the Co-op as an attachment to these minutes.

Noted that Lot 1 will be building a permanent structure (and they are part of the Co-op). It was noted that the road was originally laid in such a way as it encroaches quite a bit onto lot 1's property line. Discussion on where the road now begins with us – and it was indicated it is on the survey. Action item: Keith will be speaking with the owners of #1 to see their intentions. If they are not planning to encroach on the road, this becomes a non-issue. Also, Keith to call Trevor to discuss the above and to determine if they do encroach, what is the obligation to Trevor to ensure access remains.

- b) Discussion on how to work with cabin owner(s) who choose not to pay a portion or all of their fee costs (not including the special roadway fees of 2021).

It was noted that two cabin owners have not paid any of their 2021 fees. They have both received numerous reminders. There will be further follow up with these owners for collection of delinquent fees. The board does not wish to resort to shutting off water if we don't have too. There were other cabin owners who had not paid some fees, however, with the sale of those properties, we were able to work with the lawyers and were able to recoup these costs on the closing of the properties.

Additionally, 6 owners have not paid the roadway acquisition fees, however, now that the acquisition has been finalized these fees are required to be paid in full immediately. There is one owner who has chosen to not pay a portion of their fees. No action will be taken at this time, however, the Board will be looking into the possibility of creating a bylaw.

On April 27th, Keith will be attending an AB Federation of Rural Water Co-ops meeting to see if there are other options from other water co-ops. Because we are submitting all neighbourhood costs to the members of the Co-op, we cannot force anyone to pay non-water related items, even though they are benefitting the entire community.

- c) Requested that the garbage trailer be emptied more regularly – discussion that should an owner find the trailer full, to please report to the Board (in person, via email, phone call, etc.) and we will ensure that they are notified to action. Cost is \$60 per visit.
- d) Discussion on the state of the pond. Pond cleaning is available on an owner by owner basis. Dennis had investigated previously, and the cost to treat the whole lake with Pond Pro is approximately \$4,000 per year. UID has approved that individual owners can use “muck pellets” in front of their properties. These items are designed to reduce the muck which in turn reduces weeds and leeches. It was mentioned that in the next newsletter that we would add names of approved items to use.

A reminder that a Community rake for the lake is available to use to weed the lake. You can use it at any time.

- e) Water: Asked: the Cistern is going to be flushed? Answer that it is on the agenda for this years’ board to action. The county looks at/samples the water weekly. If there is an issue with the water the county will let owners know.
- f) Discussion on recreational opportunities for the green spaces. Will place an item in the next newsletter asking for suggestions. We have some money from the bottle/can recycling that can be put towards purchasing some communal items.
- g) Etiquette for owners and to share with short-term rentals – an ask was made to please share the rules with renters. A notice will be placed in the next newsletter. It was mentioned that some outdoor lights are left on all night long, contributing to light pollution and difficulty sleeping. An ask was made to put lights on timers. For owners/renters who have loud parties. The ask is that everyone be respectful of quiet times, and be open to requests for reducing noise once quiet time has begun. Please use courtesy with your neighbours. Before moving on to calling police or other steps, it would be nice to talk to those who need to modify their behaviours.
- h) Issues or questions – the Board is open to comments, suggestions. If you have comments, questions or concerns, please do not hesitate to reach out. We aren’t always know of issues. Board email is mountainvistaad@gmail.com.

6) Vote for 2022 Budget/Maintenance Fees

The following was presented as the proposed budget for the upcoming year:

Irrigation water	\$8,000
Garbage pickup	\$1,000
Snow removal	\$1,500
Bank fees	\$160
Electricity - Cistern	\$2,400
Electricity – Irrigation	\$360
Insurance	\$3,500
Supplies/Rental	\$200
Maintenance	\$1,000
AB Fed of Rural Co-ops	\$378
Total Expenses	\$18,498
Per lot	\$440
Reserve	\$100
TOTAL PER LOT	\$540

Budget was voted on, and passed 15 yes, 1 no
Invoices will be sent out to cabin owners shortly

7) Meeting adjourned.
